

Southern California Association of Governments

2003 SCAG Model Validation and Summary Regional Transportation Model

January 2008

Resolving Regional Challenges

TABLE OF CONTENTS

PREFACE	1
CHAPTER 1 - OVERVIEW	2
Introduction	2
Technical Approach	2
New Model Highlight.....	4
Modeling Area.....	5
Zone System.....	9
Overview of Report.....	9
Overview of Model Results.....	10
CHAPTER 2 – SOCIOECONOMIC INPUT DATA	12
Introduction	12
Socioeconomic Input Variables	12
Methodology of 2003 Socioeconomic Variable Estimate	14
Input Data Summary.....	15
CHAPTER 3 – TRIP GENERATION	20
Introduction	20
Trip Purpose and Trip Type.....	20
Vehicle Availability Model	22
Trip Productions.....	25
Trip Attractions.....	26
Balancing of Trip Productions and Attractions	30
Trip Generation Results and Findings.....	30
CHAPTER 4 – TRANSPORTATION NETWORKS	33
Introduction	33
Highway Networks	34
Transit Networks.....	44
CHAPTER 5 – TRIP DISTRIBUTION	49
Introduction	49
Trip Purpose	49
Gravity Models.....	49
Intermediate Stops Model.....	52
Trip Distribution Results and Findings.....	57
CHAPTER 6 – MODE CHOICE	65
Introduction	65
Description of Mode Choice Model	65
Mode Choice Results and Findings.....	69

CHAPTER 7 – HEAVY DUTY TRUCK MODEL	82
Introduction	82
Description of Heavy Duty Truck Model.....	82
Post Model Adjustment of Speed of Heavy Duty Trucks.....	86
CHAPTER 8 – TRIP ASSIGNMENT	88
Introduction	88
Time of Day Factoring	88
External Trips.....	89
Description of Highway Assignment Procedures.....	91
Highway Assignment Summary	91
Description of Transit Assignment Procedures.....	105
Transit Assignment Summary	105
CHAPTER 9 – AIR QUALITY IMPACT ANALYSIS	106
Introduction	106
Regional Emission Analysis	107
APPENDICES	111
Appendix A – Regional Transportation Analysis Zone System	111
Appendix B – Regional Highway Network Coding Conventions	114
Appendix C – Specification of Trip Production Models.....	116
Appendix D – Auto Operating Cost	127
ACKNOWLEDGEMENT	128

LIST OF TABLES

Table 2-1	Year 2003 SCAG Model Socioeconomic Input Data	16
Table 3-1	Vehicle Availability Model	23
Table 3-2	Vehicle Availability Model Variable Definitions	23
Table 3-3	Trip Attraction Model Regression Coefficients	29
Table 3-4	Year 2003 Trip Generation Summary by Trip Purpose and by County	31
Table 3-5	Year 2003 Trip Generation Comparative Statistics	32
Table 4-1	Year 2003 Freeway/Expressway Free Flow Speed	35
Table 4-2	Year 2003 Arterial Free Flow Speed	36
Table 4-3	Year 2003 Arterial/Expressway Capacity (Signal Spacing<2miles)	37
Table 4-4	Year 2003 Arterial/Expressway Capacity (Signal Spacing>=2miles)	38
Table 4-5	Year 2003 Freeway Capacity	38
Table 4-6	Year 2003 Ramp Capacity	38
Table 4-7	Year 2003 Highway Network Summary	43
Table 4-8	Year 2003 Transit Boarding Fare by Mode	46
Table 4-9	Year 2003 Transit Transfer Fare by Mode	47
Table 4-10	Year 2003 Transit Network Summary	48
Table 5-1	Trip Distribution Gamma Function Parameters by Time Period	51
Table 5-2	Year 2003 Home-Based Work Person Trip Distribution	58
Table 5-3	Home-Based Work Person Trip Distribution (CTPP, Travel Survey, Model) ...	59
Table 5-4	Year 2003 Home-Based Non-Work Person Trip Distribution	60
Table 5-5	Year 2003 Non-Home Based Person Trip Distribution	61
Table 5-6	Year 2003 Total Person Trip Distribution	62
Table 5-7	Year 2003 Average Person Trip Lengths by County	63
Table 6-1	Year 2003 Mode Choice Model Travel Modes by Trip Purpose	67
Table 6-2	Year 2003 Mode Choice Models	75
Table 6-3	Year 2003 Mode Choice Summary Statistics (Home-Based Work)	76
Table 6-4	Year 2003 Mode Choice Summary Statistics (Home-Based Non-Work)	77
Table 6-5	Year 2003 Mode Choice Summary Statistics (Non-Home Based)	78
Table 6-6	Year 2003 Mode Choice Summary Statistics (All Trip Purposes)	79
Table 6-7	Year 2000 Mode Choice Summary - Model vs. Travel Survey	80
Table 7-1	Daily Trip Rates for Internal Truck Trip Generation	83
Table 7-2	Year 2003 Heavy-Duty Vehicle Internal Trip Generation by County and by Sector	85
Table 8-1	Year 2003 Vehicle Trips-In-Motion Factors	90
Table 8-2	Year 2003 Highway Assignment Statistics by Time Period	93
Table 8-3	Year 2003 VMT Comparison by County and by Air Basin	94
Table 8-4	Year 2003 Screenline Comparison of Model Weekday and Ground Counts....	95
Table 8-5	Year 2003 Screenline Comparison of Model Weekday ADT and Ground Counts by Volume Group	96
Table 8-6	Year 2003 Screenline Comparison of Model Weekday ADT and Ground Counts by Facility Type	97
Table 8-7	Year 2003 Screenline Comparison of Model ADT and Ground Counts by Area Type	98
Table 8-8	Year 2003 Daily Transit Boarding - Model vs Actual Counts	105
Table 9-1	Daily On-Road Motor Vehicle Emissions	110

Table A-1	Summary of TAZ statistics	113
Table C-1	Home-Based Work Direct Trip Production Model	117
Table C-2	Home-Based Work Strategic Trip Production Model	118
Table C-3	Home-Based Elementary/High School Trip Production Model	119
Table C-4	Home-Based College/University Trip Production Model	120
Table C-5	Home-Based Shopping Trip Production Model.....	121
Table C-6	Home-Based Social Recreation Trip Production Model	122
Table C-7	Home-Based Other Trip Production Model	123
Table C-8	Home-Based Serving Passengers Trip Production Model	124
Table C-9	Other-Based Other Trip Production Model	125
Table C-10	Work-Based Other Trip Production Model	126
Table D-1	Auto Operating Cost Calculation	127
